### DEATH OF PERCY BARRELL

The death occurred at Calgary on Saturday morning last of Percy Barrell, son of Mr. and Mrs. C. B. Barrell, 7 Marlborough Apartments, at the age of eighteen years.

Percy was born in Bideston, England, and ten years ago came direct to Calgary, where he had resided since that time. He was active in sports and was attending the provincial school of technology and art.

He is survived by his parents; a brother, Wilfred, principal of the Namayo school at Edmonton; three sisters, Mrs. E. S. Campbell and Mrs. W. Wilson, Calgary, and Lilla, of Blairmore.

Funeral took place on Monday afternoon, the remains being laid to rest in the Burnside cemetery. Services were conducted by Rev. W. T. Young, formerly of Blairmore, and Dr. A. S. Imrie.

His parents, Mr. and Mrs. Barrell, resided in Blairmore for several years, Mr. Barrell being manager of the Greenhill Hotel. He is now manager of the Yale at Calgary. Mrs. Barrell is a sister of Mrs. W. Howe here, and Mrs. Sargent at Ft. Athabasca.

With the bereaved we extend sympathy.

### COWLEY HAPPENINGS

Mr. and Mrs. Hector Lemire are receiving congratulations on the birth of a daughter on March 29th.

A dance was held in the Tennessee school house on Friday night, in aid of the school fair fund.

The community sympathizes with Mr. and Mrs. George Scotton, who had the misfortune to lose their yearling and a half-old baby boy, who died of whooping cough on Thursday last. Interment took place on Saturday afternoon in the Livingstone cemetery. Rev. Whitmore, of Pincher Creek, performed the last rites.

Mrs. Wilfrid Fortier lent her home for the occasion, when the Cowley Ladies' Bridge Club entertained the Lundbreck club on Thursday night. Mrs. Lambert won the first prize, while the consolation was awarded to Mrs. Jim Smith. Among those present were: Mesdames Penn, Swanson, Mundie, Smith, Grove, Lambert, Nelson, Fordyce, Christie, Littleton, Fortier, Cleland, Tustian, Murphy, and Misses Mary Kaye and Nellie McWilliams.

The local Masons held a social evening in their hall on Friday last. The early part of the evening was devoted to cards, court work being played. The first prize was won by Mrs. Fred Tustian (silver pipe dish); consolation by Miss Aileen Cooper. Gent's first, Harry Mundie (silver smoking set); consolation, Fred Tustian. After an appetizing repast, served by the ladies, dancing was indulged in until 2 a.m. Excellent music was furnished by local talent.

### BLAIRMORE PUBLIC LIBRARY

We are placing the following books on the shelves this week:

"Great Sea Stories," by H. M. Tomlinson; "Smoke and Steel," by Sandburg; "History of The Standard Oil Co.," in 2 volumes, by Tarbell; "Poems of Wordsworth," "Poems of Keats," "Boys Who Lived on the Road from Long Ago," by Andrews; "Sheriff's Deputy," by G. V. McFadden; "Dinner of the Doorstep," by F. Purdon; "The City of the Clouds," by C. Ranger Gull.

Library hours are: Tuesdays, Thursdays and Saturdays from 7 to 9 p.m.

Former Kaiser Wilhelm is reputed to be the richest German, residing either in the fatherland or abroad. His ex-highness would probably give half his great wealth to once more lead a division of Uhlans through the streets of Berlin.

### DEATH OF DAVID M. McLEOD

The many friends of Mr. and Mrs. Herdman McLeod join in sympathy with them in the loss this week of the second eldest son, David McDonald, at the age of seventeen years.

David had been suffering for a considerable period and the end was fully expected. He is survived by his parents, four sisters and two brothers.

Funeral took place on Tuesday afternoon, and was very largely attended. The remains were laid to rest in the Coleman Union cemetery, following an impressive service held at the home by Rev. Mr. Larke, of the United Church. Floral tributes of sympathy and respect were many and beautiful, and included the following:

Mr. and Mrs. Thomas Hewitt and family (Frank), Mr. and Mrs. Mike Murphy (Medicine Hat), Mr. and Mrs. W. R. Godfrey, the Graham Family, Mr. and Mrs. H. C. McBurney, Mrs. W. G. Fraser, Mr. and Mrs. N. Burtinck and family, Mr. and Mrs. M. J. McGrath, Mr. and Mrs. C. W. MacKinnon and Grace, Mr. and Mrs. E. G. Guerd and Fred, Dr. E. K. and Mrs. Lillie (Blairmore), Mrs. L. E. Lillie (Oreston, B.C.), S. M. L. Lodge No. 30, A.F. & A.M., Mr. and Mrs. Arthur E. Graham and Jackie, Mr. and Mrs. Jack C. Richards and Sonny, Mr. and Mrs. A. B. Westworth, The Family, Grandad and Granny, Mr. and Mrs. Haycock Hurlbert, Minerva Chapter of the Order of Eastern Star, Mr. and Mrs. John Jackson and family, Mr. and Mrs. Harry W. Clarke and Hubert, Mr. and Mrs. J. A. McLeod and family, Mr. and Mrs. George Pattinson, Bobbie and Jean; Mr. and Mrs. Wm. Bell, Mae and Margaret; Mr. and Mrs. Scott Campbell and family, Mr. and Mrs. Charles Nicholas and family, Coleman High School Staff and Students, Mr. and Mrs. Jack McDonald and family; Mr. and Mrs. H. S. McDonald, Jean and Pearl; Boys of the M-G Illuvay T. P. Co., Mr. and Mrs. A. P. Short and family, Mr. and Mrs. George Kellock and family, Mr. and Mrs. M. W. Cooke and family, Mr. and Mrs. James Allan and family, Mr. and Mrs. J. O. C. McDonald and family, Mr. and Mrs. Gordon McDonald, Mr. and Mrs. Roddy McLeod and family, Mr. and Mrs. W. L. Ripon and family, St. Paul's Church Missionary Society, The Palace Theatre, Mrs. Phyllis Stone, Mr. and Mrs. Thomas Higginbotham and family, Joe Janostek, Miss A. Yull, Mr. and Mrs. Robert Evans, Mr. and Mrs. A. M. Morrison and Ruth, Mr. and Mrs. F. McDonald (Blairmore), Hillvue Chapter, R.A.M. (Hillcrest), Al Azlar Temple (Calgary), Mr. and Mrs. Gordon Steeves (Blairmore), Mr. and Mrs. J. S. D'Appollonia, Mr. and Mrs. Wm. Hogan and children, Mr. and Mrs. H. S. Hyman (Winnipeg), Mr. and Mrs. E. D. Conger (Mercoval), Mrs. Ferguson and Joy, Mr. and Mrs. Tim Murphy (Blairmore), Mr. and Mrs. S. A. Williams, Margaret and Jack (Nelson, B.C.), Mr. and Mrs. W. R. McDonald and family (South Slope, B.C.), Mr. and Mrs. C. J. Tompkins and family (Blairmore), Mr. and Mrs. James Cardie and family (Maple Leaf), Mr. and Mrs. Youngberg and family (Maple Leaf), Mr. and Mrs. Alex. Cameron (Blairmore), Mr. and Mrs. Angus Morrison (Calgary). Also letters of sympathy from the following: Mrs. Fairfull and Peggy (Calgary), Mr. and Mrs. John Kapteyn (Mercoval), Mr. and Mrs. Kinnear and family (Calgary), Mr. and Mrs. Moses Johnson and family (Blairmore), Mr. and Mrs. J. Asbridge and family, Coleman Missionary Society, Mr. and Mrs. A. Cornett, Helen and Melville; Mr. and Mrs. Alan J. Brown, Mr. and Mrs. D. Hoyle and family, Mr. and Mrs. Thomas Flynn and family, Miss Betty Sifton (Calgary), Miss Gladys Cohen (Winnipeg), Miss Audrey M. Howe (Mer-

### Why France Is Economically Strong

Trying to ferret out the reason why France, of all the major nations, has no unemployment, but rather is importing 3,000,000 aliens to work in her fields, mines and factories, Freeman Tilden writes in the World's Work on "Why France is the Top-Dog."

All the champions of French factories are smoking. Portuguese workers have been imported in droves to supply the shortage of labor. Italians armed with picks and shovels follow Napoleon's trail over the Alps, in reverse order. Three hundred thousand Poles were given jobs last year. There are no doles, no Communists, no bread lines.

The findings run something as follows: Frenchmen are born marketers. They waste nothing. They know how to stretch French paper to make the two ends meet. Nothing is wasted.

Nor does this mean they have poor food. They furnish the chefs of the world. They do not dress shabbily. They dress the world. But they dress themselves first.

They buy for cash. They pay down in full for real estate. Not many know what call money is. Most are on printed pages only. High-powered salesmen are an American institution. French cars seldom wear out carrying heavy mortgages around. Every large business concern has its economist. Employees get good meals at cost. The economists purchase at wholesale prices. Railway employees even get their coal and household supplies for a third what others pay outside of the economist. Companies do not exploit or commercialize their help.

The Frenchman hardly knows what a robot is. Almost everything is hand made. A country that is many times smaller than any one of our Western Provinces supports its millions by managing its individual affairs well. Thus the under-dog has become top-dog.

Is there not in the French situation as thus disclosed a suggestion of value worthy of the thoughtful consideration of the producers and workers of other countries?

Here in America, in Canada as well as in the United States, every encouragement, indeed the most striking inducements, are held out to people in all walks of life to buy on the installment plan, rather than for cash. The use of credit has become almost universal, not only for capital expenditures which is justifiable and proper if the borrowings are kept within reason, and the capital expenditures to which they are devoted are of a revenue-producing character, but for current expenses. People are urged to buy not only necessities but luxuries on the credit plan, with payments spread over a term of months, or even years. The argument advanced is frequently to enjoy these luxuries now and while you are paying for them, rather than to wait until you have saved sufficiently to pay for them outright. It is a fallacious argument, a fatal mistake to make.

Complainers are fairly general that the banks will not extend credit at the present time. Possibly, however, the mistake by the banks in the past is that they extended too much credit too easily, coupled with the further mistake that they demanded too high a rate of interest and thus make it next to impossible for the borrower to ever get out of debt once he is landed in that position. Many a man, both city residents and farmers, have told the writer that having got into debt to the banks or mortgage companies they had a long uphill struggle to get out. They found themselves working for these financial corporations to meet interest charges rather than for themselves. They vowed that once they got out of debt, they would never get in again, but rather would do without things until they could pay for them outright, tighten their belt if necessary, and carry on in the meantime.

It is the man who is carrying a load of debt, paying heavy interest charges annually, possibly on no-revenue producing expenditures made in the past, who finds himself in real difficulty in times of business depression. Any little cash he can get must be paid out again to keep himself solvent instead of being available to carry him along until the tide turns again. But the man who has followed the policy of "pay as you go," who is free of debt, is the man who can most easily weather the storm. Such a man can "carry on," but the man already heavily in debt finds himself in the predicament of going in still deeper, and the final result is, all too frequently, that he finds himself in an impossible position, so deep in fact that, he can never get out.

Is the French way not the better way? Does it not make for greater contentment, a more consistent measure of good times, a more enjoyable, happier existence?

#### Alberta Fur Farming

Three Hundred and Forty Individuals and Companies Operating Fur Farms in the Province

According to the annual report of Benjamin Lawton, Alberta game commissioner, some 340 persons or companies were operating fur farms within the province in 1930. On these farms were the following animals: Muskoxen, 15,510; silver foxes, 13,527; mink, 1,600; cross foxes, 786; red cross foxes, 279; blue foxes, 455; rabbits, 409; badgers, 151; beavers, 112; caracul sheep, 109; and smaller numbers of fisher, marten, raccoon, skunk, otter, coyote and lynx.

Cotton gets its name from an Arabic word guta.

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The M. N. U. Co., Ltd., Toronto, Ont.

#### Junior Agricultural College

Proposal For Establishment Of College At Head Of The Lakes

The establishment of a Junior Agricultural College at the Head of the Lakes for the training of young men and women of Northwestern Ontario was advocated before the Fort William Chamber of Commerce at a recent meeting. Members of the Port Arthur Chamber of Commerce attended the meeting and supported the proposal.

A scientist who studied the work-manship in stone blades made by prehistoric Indians concluded that the Indians were left-handed or ambidextrous to a greater degree than civilized men.

### Heart and Nerves So Bad

Was Unable To Sleep For Hours

Miss Theresa M. Ravary, Gillingtown, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on getting at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could get a good night's rest, and rapidly regained my former state of health."

#### End Of Communism

McGill Economist Sees Soviet Despotism Felled By Human Nature

"Russia is going to break, Communism will prove unavailing, the five-year-plan is doomed to failure, and the greatest despotism and tyranny that the world has ever seen will be foiled by human nature," declared Dr. Stephen Leacock, head of the department of political economy of McGill University, addressing the junior board of trade of Montreal recently on Communism.

The professor issued a warning that police batons were not the correct means of destroying Communism in Canada. "The needs of the people which lead them to seek after anything new must be satisfied as the first and only step required to do away with this evil," he said, referring to Communism in this country.

What was going to happen to Canada and other parts of the western world before Russia's five-year-plan failed, Dr. Leacock asked. "Are we going to all back and condemn Communism and do nothing to cure the evils of present-day civilization? Are we to permit Russia to set us and the rest of the world an example in energy and determination in the exploitation of their country?"

#### Military Medal Law Revised

Holders Of V.C. Cannot Be Automatically Deprived Of Decoration

Holders of the celebrated Victoria Cross, highest award for gallantry in Britain's army, will not, in the future, be automatically deprived of the medal if convicted of "treason, cowardice, felony or any other infamous crime," as has been the case in the past.

This important change is one of the new provisions governing military medals announced in the London Gazette. It is stipulated, however, that the award of the V.C. may be cancelled by the King, who may also restore the decoration, if and when the recommendation for annulment is withdrawn.

### BREAKS UP GAS IN THE STOMACH

Don't suffer from dangerous gas pressing around your heart. Indigestion, acidity, bloating or pain of the stomach. Stop worrying. When you need quick stomach relief, take a little Bismarck. Bismarck breaks up gas, neutralizes acids and keeps the stomach sweet and strong, and indigestion perfect. At all good drug stores.

#### A Dangerous Weapon

Germany Is Replacing Beer Steins With Paper Cups

Beer mugs always have been dangerous weapons in Germany. But no longer will political gatherings break up with the air filled with flying beer mugs. The Berlin police have issued an order that when politicians get together there shall be no stein on the table, but paper cups instead.

This is going to remove a good deal of the dramatic from Berlin café gatherings. But it should bring relief to overworked hospitals, which usually have a number of injured to patch up after a Fascist or a Communist meeting. No much of a dent in the human anatomy can be made with a paper cup.

#### Scotland Boosting Aviation

Dundee, Scotland, recently held an informal justification over the first business transaction carried out there by aeroplane. A business man had flown from Glasgow, landed in a field near Dundee, completed his deal and within an hour was on his way back by air. As a result of the visit, Dundee is joining the movement to provide an airport for every city in Scotland.

The worms that infest children from their birth are of two kinds, those that find lodgment in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there, Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

#### Half and Half

A lady much above the usual size was trying to enter a street car. A passenger, who was waiting to get off, began to laugh at her futile efforts.

"If you were half a man, you'd help me on this street car," snarled the fat lady.

The passenger retorted, "Madam, if you were half a lady, you wouldn't need any help."

M. N. U. 1933

#### New Canadian Destroyers

Two New Vessels To Be Added To Canadian Navy

Delivery of the first of Canada's new destroyers, H.M.C.S. Saguenay, will be made to this country very shortly. A number of tests have still to be made, but it is expected that a Canadian crew will be put on board the warship soon, and she will formally pass into the hands of the naval service of this country.

For the most part the ship's company is already in England. From time to time in the past few months Canadian bluejackets have proceeded to the United Kingdom on courses of instruction in the Royal Navy, nearly 200 officers and ratings are thus ready to take over the new destroyers as soon as they are delivered from Thornycroft's.

The second vessel, H.M.C.S. Skeena, will be turned over about May 20.

The new destroyers are the last word in construction of that type of vessel, incorporating many new features that have been developed since the war. Specifications called for a speed of 35 knots, but in her trials "Saguenay" has exceeded that. Both are equipped with turbine engines. Their armament comprises four 4.7 guns and two 4-tube torpedoes. About 100 officers and ratings constitute the ship's companies.

#### California Protects Its Fruit Industry

May Prohibit Banana Imports So People Will Eat Home Grown Fruit

The State Legislature of California is seriously considering the prohibition of the import of bananas. For why? Not because the banana is grown in California and so the import of the foreign-grown banana would interfere with the home-grown product. The argument for prohibiting the importation of bananas is in the logic of the protectionist. The eating of bananas as the protectionists of California see it, means less eating of peaches and other fruit grown there. So the eating of bananas have to curb their sinful appetites when it comes to their favorite fruit. To make it all the easier for them to do this there are to be no more bananas in California if the legislators of California are to have their way.—Lethbridge Herald.

#### Big Business In Farm Machinery

Nearly 100,000 Tractors Sold In Western Canada In Past Twelve Years

Nearly 100,000 tractors have been sold in Western Canada in the past twelve years, and of this total, more than half went to farmers in Saskatchewan, according to the latest estimates. In three years more than 5,000 threshers have been sold in Saskatchewan, half the total for all Western Canada. In the past five years, Saskatchewan farmers have purchased 6,000 combines and the total for the West in that period was 9,000. Out of the 2,046 threshers sold in the West in 1930, 826 were bought in Saskatchewan.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, deliciously cool to the skin, it always results in complexioned delightfully young and lovely. Indispensable to every dainty woman. As a powder base for oily-textured skins or as a beautifying lotion, it is unrivalled. Tones and stimulates the skin. Recommended also to soften and make the hands flawlessly white.

#### Should Look After Himself

A traveller in the Orient asked a pasha, "Is your civil service like ours? Are there retiring allowances and pensions?" "My illustrious friend," replied the pasha, "the public functionary here who stands in need of a retiring allowance when his term of office expires is a fool!"

#### To Print Address

Categorized as a "speech of international importance," one thousand copies of the recent address of Hon. Hugh Guthrie, Minister of Justice, before the American Bar Association, are to be printed in the records of the United States senate, it was learned recently.

#### Good Price For Livestock

The Manitoba Agricultural College recently shipped three baby beavers to the Union Stock Yards markets, which established a new season's "top." The beaver averaged 900 pounds and sold for \$3.00 per hundredweight.

Perhaps the world may owe you a living, but you will die of starvation if you sit down and wait for it to call and settle.

London has a war over modern art.

## EAT MORE of this CORN SYRUP

### Proposes New Study For Canadian Schools

First-Aid and Home Nursing Under Subjects, Says Colonel Hodgetts

First aid and home nursing should be made subjects in public schools, declared Col. C. A. Hodgetts, director-general of the St. John Ambulance Association, at the annual meeting of the organization in Ottawa. This type of training would, he said, be more useful than "some of the twaddle" now being taught.

The year 1930 was described as surpassing all other years in the history of the association. In the various courses, 23,399 persons took part and proficiency certificates were awarded in 12,855 cases. Certificates and awards had a grand total of 19,748. The annual report was presented by Hon. J. H. King, president.

#### Rubber Wheels For Dining Cars

The possibility of rubber dining car wheels is being studied in France by representatives of the principal French roads. Experiments are being conducted on a branch line to St. Florent. Gasoline-driven engines with rubber tires have been operating for several months, and experts believe that their adaptation for passenger cars also will lessen noise, shocks, and deterioration of the rails.

The heart of an insect is reversible, sending the blood backward as well as forward.

### A Hazardous Calling

Many Movie Actors Lose Lives In Making Pictures

Packing thrills and realism into the movies is fraught with death and accidents often as tragic and thrilling as the scenes depicted. During the last five years, fifty-five actors, extras and studio workmen have lost their lives in making pictures, and scores of others received permanent or temporary injuries in the effort to provide "thrillers" for movie fans. In addition, the California state industrial accident commission paid out \$421,850 to members of the motion-picture industry for deaths and accidents during the course of employment.

### Giant X-Ray Tube

Will Be Used In The Treatment Of Cancer Patients

A giant X-ray tube, developing 600,000 volts, has been developed at the California Institute of Technology, for treating patients suffering from cancer, a formal statement issued by the Institute announced.

The statement said that "As Dr. Robert A. Milliken has previously stated, the institute does not profess to have discovered a new cure for cancer; the principal hope is, that if results are favorable, other tubes of similar type will be placed in operation in hospitals in other sections of the United States."

# WHO'S WHO

Hon. O. P. Goucher

NOVA SCOTIA has as its Minister of Natural Resources Hon. O. P. Goucher, who has been closely identified with agricultural work for many years. He is also chairman of the Nova Scotia Committee of the World's Grain Exhibition and Conference.

Born in Annapolis County in 1865, Mr. Goucher graduated from the public and high schools and finished off his education at the Truro Normal School. For four years he was principal of the Lawrencetown High School and for another six years acted in similar capacity at the Middleton High School.

Entering commercial life in 1902 he became associated with the Manufacturers' Life organization and in 1925 assumed the general management of the company for the Province of Nova Scotia.

Mr. Goucher was elected to the Nova Scotia Legislature in 1925, and was called upon to enter the Government in 1930, taking the portfolio of natural resources.

For a number of years he was closely associated with the fruit growing industry of his Province, owning and supervising an apple orchard of considerable size in the heart of the Annapolis Valley.

## NEW FLAG WILL

FLY AT OTTAWA

With the arrival in Ottawa this week of Canada's new governor-general, the Earl of Bessborough, use will be made for the first time of the flag for governor-general, not only ordered and approved, but actually designed by His Majesty the King. It is not the personal flag of Lord Bessborough, but rather of his position and that of his successors.

The flag is large and the field navy blue. In the centre is a crown of gold or yellow, surmounted by a lion. Ornamental coloring beneath the crown sets forth in letters slightly semi-circular, the word "Canada". The same flag will be used in all the other dominions with the name beneath the crown varied.

The new flag will be flown over Rideau Hall and also over the eastern block, when the governor-general is in his office. Moreover, and this is a new departure following royal orders, a small size of it will be flown from the top of the motor car in which His Excellency drives about.

## ENGLISH SCHOOL TEACHERS TO VISIT CANADA

With a view to gaining first-hand information with respect to the education of young women in Canadian Universities, a party of twelve headmistresses from English schools will tour Canada next month under the direction of Miss Edith Thompson, C.B.E., of Suffolk, England, and Miss Stewart Galt, Toronto. The party will arrive at Halifax on April 4th and will immediately commence a tour of the entire Dominion, according to Osborne Scott, general passenger agent for the Canadian National Railways.

The party will spend a day at each of the western universities and each day at one of the universities in each of the eastern provinces. Miss Thompson is at present in the west completing arrangements for the trip. The various types of schools for training girls in England will be represented by the headmistresses. The party will include: Miss M. Tweedie, M.A., Edinburgh Ladies' college; Miss G. J. McCree, M.A., J.P., Stafford Girls' High School; Miss M. G. Clarke, M.A., Manchester High School for Girls; Miss Sparks, M.A., Ladies' College, Cheltenham; Miss H. C. Craig, Christ's Hospital, Hertford; Miss Mariel Davies, M.A., County Secondary School, Streatham; Miss Turner, M.A., County Secondary School, Sydenham; Miss Birrie, M.A. (a niece of Sir James Barrie), King Edward's High School for Girls, Birmingham; Miss K. H. McCutcheon, M.A., St. Leonard's School, St. Andrew's; and Miss I. M. Drummond, M.A., North London College and School, London.

## "FLEEING THE PUBLIC"

It is high time that steps were taken to curb a hypocritical system of merchandising foisted upon a gullible public. Children are induced to solve some simple puzzle and "win" a prize. When they respond they are told that they must sell so many tins of talcum, so many bottles of perfume, or some such line of junk. Out of compassion for the kiddies who try to sell the articles, people buy and then throw the junk to one side. This whole scheme is vicious, and is but little lower than blackmail in the scale of crime. It is a fit subject for governmental investigation.—Clareholm Local Press.

## The Result

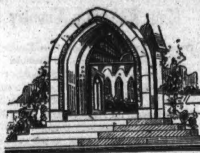

A farmer met one of his men-servants setting off from the farm one evening, all dressed up and carrying a lantern.

"What are ye af tae, Sandy, wi' the light?" he said.

"Oh," said Sandy, "I'm af tae tak' my sweetheert for a walk."

"What said the farmer, "I never needed a light wi' me!"

"Ah," said Sandy, "but look what you got!"

BLAIRMORE UNITED CHURCH  
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, April 5th, the pastor in charge.

11 a.m.—Easter Morning Service, for the morning school and the congregation.

2 p.m.—JUNIOR SCHOOL

7:30 p.m.—PUBLIC WORSHIP.

Easter Service. Special Easter music by the choir at both services.

During the Easter week, all regular meetings are cancelled.

ST. LUKE'S, BLAIRMORE

A. S. Partington, Vicar

This week being Holy week, the services will be as follows:

MAUNDY THURSDAY, at St. Luke's, 10 a.m.: Holy Communion; 8 p.m.: Evensong and address.

GOOD FRIDAY, at Cleman, the three Hour Meditation on the seven words from the Cross, to which a very cordial invitation is extended to all attend, particularly A.Y.P.A. members. 8 p.m.: Evensong in St. Luke's, Blairmore, and address.

EASTER DAY, at St. Luke's, 9 a.m.: Holy Communion. 10 a.m.: Sunday School. 7 p.m.: Choral Evensong and sermon.

## ANADIAN NATIONAL EARNINGS SATISFACTORY

"Notwithstanding lower revenues in 1930, due to world conditions and general depression; notwithstanding a greater mileage requiring maintenance, a lower scale of rates and a higher scale of wages, net earnings of the Canadian National railways last year were three times greater than those of 1922." Sir Henry Thorne stated recently, in an address to the Quebec Canadian Club.

This was due, the railway president said, to a sense of responsibility to the public which owned the system and to the efficiency with which its operations were carried on. The operating figures he gave, which excluded eastern lines, showed that gross revenues in 1922 were \$223,027,371, in the first year, as compared with \$231,770,445, in 1930. The gross was therefore about \$2,000,000 less. Expenses, however, were \$17,000,000 less in 1930 than in 1922, \$195,259,507 as compared with \$212,966,671. Net earnings in 1930 were \$26,510,938, as compared with \$10,720,709, in 1922, an improvement of \$15,000,000. In the meantime, a first class railway system was being constructed out of the chaos of a number of old, dilapidated, unconnected lines, and the Canadian National System emerged as a

## The Canadian Breakfast

## Here and There

(701) The Nova Scotia fish catch for December last was 12,161,600 lbs., having a landed value of \$266,111, as compared with a catch of 10,480,700 lbs. with a value of \$229,552, for the corresponding month of the previous year.

Total amount of capital invested in Canada from other countries at the end of 1930 was \$6,375,532,000 an increase of \$23,000,000 as compared with the total at the end of 1929. Of this outside investment, 61 per cent. is said to be from the United States; 33 per cent. British; and 4 per cent. from other countries.

The yield of potatoes in Canada in 1930 totalled 3,153,232 bushels, from 574,500 acres, an average yield of about 112 bushels per acre. In 1929 the yield was 65,500 bushels from 543,727 acres, or an average yield of 122 bushels per acre. Potatoes are being successfully in commercial quantities in every province of the Dominion.

The Canadian Pacific Railway has announced placing of orders with the Alberta Steel Company of Sault Ste Marie for 30,000 tons of 130 lb. steel rail for spring delivery, representing a value of approximately \$1,500,000. This unusually heavy rail will be laid on 150 miles of the company's main line in the Mountain Division of British Columbia.

Prescott, Ont., Canada's newest national port, is rapidly approaching completion. The \$5,500,000 terminal which the Canadian Government is building there as a turning point for the Upper Great Lakes grain trade when they come down through the Welland Canal in the spring of this year will be ready for traffic in advance.

Canoeing history was made at Quebec recently when the seven Laclede brothers gave every day on the ice-dotted waters of the St. Lawrence between Quebec and Lévis the remarkable time of 2 minutes, 43 seconds, and took first place in the canoe race which was one of the features of the Quebec Winter sports season with headquarters at the Chateau Frontenac.

"Melody Mike", Canadian Pacific Railway radio feature gives every Monday night, is not only attracting wide popularity in Canada; the United States also. It is the railway's radio department recently had a letter from a school teacher in the State of New York asking for 55 copies of Melody Mike's Favorite Irish songs, for distribution among her pupils.

In 1930 the Dominion's gold production was valued at \$1,000,000, an increase of \$2,000,000 over 1929. The capital investment in the mining industry in Canada in the year ended 1929, the last year for which complete industrial statistics are as yet available, amounted to \$100,000,000. In that year the industry gave employment to 35,000 men and paid out in salaries and wages \$125,000,000.

The establishment of a \$75,000 marine leg for handling grain at the Ocean Terminals is one part of the programme for the development of the Port of Halifax recommended to the Federal Government recently by the Halifax Board of Harbor Commissioners. This addition, in the opinion of the chairman of the Board, would attract more shippers and vessels to the port, and would save in one year an amount equal to the cost of the equipment.

Freight transportation requirements of the United States are equivalent to hauling 400 billion tons one mile every year and there is no other instrumentality that can handle more than 20 per cent. of these requirements. It was stated recently in an address in New York City.

C. B. Andrews, of Winnipeg, has been appointed district passenger agent at Saint John, N.B., in succession to George B. Beer. Mr. Andrews joined Canadian Pacific service in 1910 and has worked his way up from a clerkship in the superintendent's office at Souris, Manitoba.

Co-operative associations in Canada numbered 1,095 in 1930 with a total membership of 690,685. In 1929 there were 996 of these organizations which reported 512,835 members. They include grain growers, dairy farmers and fruit and vegetable growers in the eastern provinces.

Enrollment in the Saskatchewan Government's correspondence school has now passed the 5,000 mark, according to information received from the office of Premier J. T. M. Anderson, Minister of Education. Applications are still coming in, as many as 43 being received in one day, and up to the present the department has been able to handle all applications.

## MOTOR BUS COMPETITION

One of the Canadian Pacific Railway's celebrations of its fiftyth anniversary will consist of cancellation of the Crows' Nest train. This has been rendered imperative by motor bus competition.

It is an ironic twist of events. The company which foresaw the possibilities of the West, and took the initial chance—considered at the time a particularly risky one—is now being ousted from one section of the West by those who have followed in its wake. Without the railway, the bus companies would not be able to operate. The roads along which their busses travel, and for the upkeep of which they pay no more than any other concern, were made possible by the railway, for which maintenance of its own tracks has remained a major expenditure.

The situation is a difficult one. Nobody can deny the bus companies the right to utilize facilities that are at hand, nobody can dispute that, by utilizing them, they are taking an unfortunate advantage of the railway company.

Cancellation of the Crows' Nest train is one instance of the difficult competition the transcontinental railway of today has to face. The railway remains the only certain and reasonable form of transportation from the Atlantic to the Pacific. There is no significant competition in connection with long hauls of either passengers or of freight. Yet a great deal of the railway's revenue is derived from passengers who travel short distances—from one Ontario town to another, from one Saskatchewan town to another, and so on. It is here that the competitors of the railway are making significant inroads into its profits. All the way along the tracks, small transportation concerns are attempting to cut down the railway's short-distance business.

In cases where these concerns are operated upon a reliable basis, they are taking legitimate advantage of circumstances, and—apart from the disparity in maintenance costs—the railway in many cases is holding its own. There are, however, other ventures, which are started by those who do not know the transportation business. These set out to under-cut the railway prices. They succeed—for a time. Then, inevitably, they find they

cannot meet expenses. They go out of business, yet, in the meantime, a certain amount of business has been taken from the railway. There is, moreover, no definite end to the number of persons who will start out inadequately supplied with facts and who will make an effort to operate transportation systems at cut-rate fares. The impact of these successive ventures—even though they end in failure—upon the railway's revenues is, during the course of a year, of no considerable proportions.

The Canadian Pacific Railway is encountering difficulties of a different nature, but, none the less, just as formidable, as it did in the days of yore. In addition to the above, it might be stated that the bus companies or truck companies are entitled to no support locally, since they are not paying direct taxes toward local schools or municipalities, whereas the C.P.R. constitutes one of our largest sources of revenue.

## CANADA ON PARADE

Distinctly Canadian in character and with a deep-rooted appeal for Canadians throughout the Dominion—a new, Dominion-wide radio program will go on the air beginning April 10th, under the title of "Canada on Parade." This new series of broadcasts, which will be heard over 25 stations each Friday night is being sponsored by General Motors of Canada, Limited.

Advance information on the program indicates that it will attempt to achieve what the title infers—to place Canada literally on parade in an educational, musical and historical way. The best Canadian orchestral leaders, the outstanding Canadian dramatic directors and an impressive list of well-known public men, giving brief, inspirational addresses, will seek to strike a truly national note in this weekly feature. Guest artists and speakers from Great Britain and other overseas countries will also contribute to the programs week by week.

All the resources of General Motors of Canada have been placed at the disposal of its radio directors to build up a broadcast that is intended to voice the feelings and aspirations of all Canadians and give true expression to Canadian music and drama. The vastness and potential greatness of the Dominion will be emphasized.

The whole program, in short, will provide a kaleidoscopic view of Canada, past and present, by means of the best musical and dramatic talent in the Dominion, and from the lips of statesmen, educationists and men of industrial affairs. Each weekly broadcast will feature a short talk given alternately by an eminent British or French speaker, living in London or Paris, and a musical or speaking number by artists from Great Britain and the continent.

## Local and General Items

A beautifully colored butterfly, with a wing spread of five and a half inches, was brought into the Truro News office, Nova Scotia, on the morning of March 19th.

Jack Taylor, Canadian and British Empire heavyweight wrestling champion, will defend his title against Walter Anderson at Edmonton tomorrow night.

Mrs. J. H. Bremner, of Winnipeg, has been the guest of Mrs. W. L. Shera, and left on Wednesday for Macleod, where she is visiting Mrs. Bremner, senior, and will leave on Saturday for her home—Lethbridge Herald.

Porter: "Say, boss, I reckon ye ain't familiar with these heah modern inventions. When ye want to be called in de mawnin' all ye has to do is to press de button at de head of ye' bed. Den we comes up an' calls ye'."

An exchange suggests that if you are thirsty and without water, put a small stone or a button under your tongue. It will keep your mouth moist. Of course, this is only necessary when travelling through farming areas.

The National Fence Company Limited have purchased a site and will erect a plant at Red Deer. They will manufacture, among other articles, snow fences, such as are in general use along Alberta highways today. The new plant will represent an outlay of around \$15,000.

The annual meeting of shareholders and directors of the Lundbrook Community Hall Association was held on Monday, March 23rd. The financial statement showed the building and furniture as it stands fully paid for and completely out of debt. The new board of directors are: A. M. Denamore, Mrs. G. Penn, J. A. McLean, Charles Patton, Mrs. Mundie, A. M. Connelly and Ed. Marlow.

Eskimos are now bringing their furs by airplane as far south as Edmonton, directly from the vast trapping regions of the Arctic. Formerly they had to store their catch through the long winters and take their furs

out in the spring to local trading points to be sold for a fraction of what they are now getting in markets in close touch with civilization. The average cost for renting an airplane for the round trip is about \$375, but often one good pelt will pay for that.

## HANDLING OF EXPLOSIVES

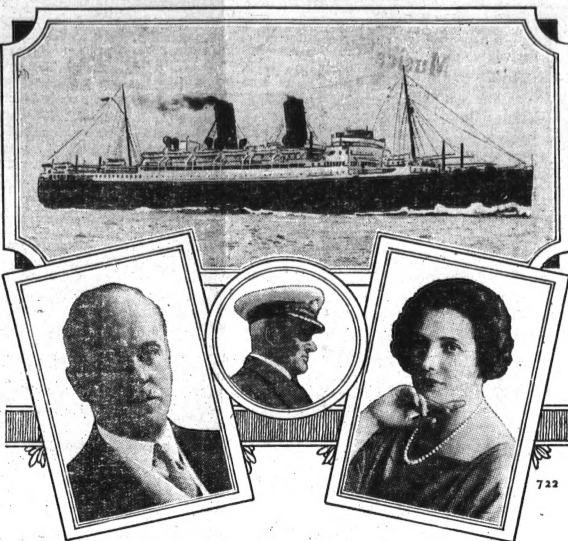

In view of the road construction and other operations contemplated by provincial and municipal bodies and that are now in progress to relieve unemployment, the Explosives Division of the Dominion Department of Mines is seeking the co-operation of contractors in an endeavor to curtail the number of accidents caused by the handling of explosives. Officers of the division find that in ordinary times accident occurrences are more marked in the case of small operations than in those carried out on a large scale by organizations accustomed to such work. They are of the opinion that this may be due in part to lack of experience in the handling of explosives in such operations, although sometimes long experience and immunity from accident seem to give rise to a lack of precaution.

Common causes of accidents are failure to take sufficient cover from projected debris, the too hasty return to investigate an assumed misfire, and misjudging the rate of burning of the fuse. It is extremely important that all workmen should know that safety fuse burns at the rate of either thirty or forty seconds a foot according to brand used, but never at the rate of a foot a minute. Numerous accidents may be attributed to a widespread misconception of this fact.

In the light of the study of the causes of accidents the Division has prepared a small publication dealing with these and other dangers that may be avoided by a little forethought and care. This booklet entitled "Handling of Explosives" will be issued free of cost to those in charge of operations, on application to the chief inspector of explosives, Department of Mines, Ottawa.

Plans are being drawn for the erection of a glass skyscraper in a German city. Tenants are expected to refrain from throwing stones.

## Governor General's Arrival

Precedent demanding that Lord Bessborough shall become "His Excellency the Governor-General and Commander in Chief" at Halifax where he will be sworn at the historic Province Building. Captain H. Sibbons, R.N.R., commander of the Canadian Pacific liner Duchess of Bedford will divert his vessel from her regular course and call at the Nova Scotian capital to land the vice-regal passenger Easter Saturday. The lay-out shows Lord Bessborough; Lady Bessborough, the former Roberts de Neufville, only French born peeress of Great Britain; Captain Sibbons, one of the most popular captains on the Atlantic and the Duchess of Bedford, 50,000 ton liner—largest Canadian vessel to call at Halifax.

## OH

Just a smile for all hands in your offices—this bein' the latest from my battlefield!

Oh, John, please don't let's park here

Oh, John, please don't let's park

Oh, John, please don't let's

Oh, John, please don't

Oh, John, please

Oh, John

Oh!

That, gentlemen, is the short short story of the ages!—Ex.

Nothing irritates a nude Doukbor more than being dusted with its powder.

## GLACIAL PERIOD WALRUS SKULL FOUND

The Natural Resources and Development branch of the Canadian National railways came in possession recently of a walrus skull, believed to be between twenty and thirty thousand years old, which was found in northern Manitoba by George Brown, of the P.A.S., an employee of the C.N.R., during recent construction work on the Hudson Bay Railway. The skull was discovered eight feet beneath the surface of a gravel ridge situated 3 miles east of the main line of the Hudson Bay Railway at Mile 167. This point is about 35 miles due west of the western shore of Hudson Bay.

The skull is that of the Arctic walrus (*Trichechus Rosmarus*) and probably represents one of the many wanderers that flourished south of the Hudson Bay during the glacial period. Walrus are notoriously gregarious and it is interesting to reflect that over much of the country at present traversed by the Hudson Bay Railway, there was once heard the deep barking of thousands of these mammals, ordinarily peaceful but thoroughly formidable when aroused.

The two tusks, some fifteen inches in length, are well preserved after thousands of years beneath the sands but one is considerably worn at the tip. It is considered possible that this tusk was chipped as the creature slung among rocks and sea shells in search of food or was broken in battle with some polar bear, the inherent enemy of the walrus.

## So Clannish

Pat had landed in New York and stood at one of the busy crossings waiting to cross the street. At first he was quite entranced with the manner in which the policeman on point duty would now and again hold up the traffic and call out "Pedes trians," upon which the waiting crowds would throng across the street.

Pat watched this procedure in silence for some time, but at length he came distinctly impatient.

"Say, mate," he inquired of a near-by Yankee, who now stood waiting the summons to cross, "when do the Irishmen get a turn to cross?"

The right to loaf has been upheld by the United States Circuit Court of Appeals. It ruled that idling on the streets or in public parks is not an offense unless an overt act is threatened or committed.

## B. C. TEACHERS' SALARIES TO BE LIMITED BY ACT

Complete readjustment of school teachers' salaries throughout British Columbia is to be brought about by drastic amendments to the Public Schools Act, providing that:

1. The Provincial Government will set up a standard schedule of salaries for all classes and grades of teachers. 2. All city and district municipal school districts will be graded into sub-classes having regard to population and other considerations. 3. Government grants to teachers' salaries will consist of fixed percentages of the standard schedule, not of the actual salary.

4. Salaries in excess of the standard schedule may not be paid by any school board without express permission of the city or municipal council.

It is argued that this will bring about greater uniformity in teachers' salaries and in the provincial government grants, and would tend to protect the teacher in small school districts from being exploited by parsimonious trustees and protect the taxpayers from school boards which desire to pay excessive salaries.

## A STORY OF LONG PAST

Recalling the vagaries of long past winters, John Herron, of Pincher Creek, tells of a gruesome incident whose recital must have constituted a thrilling bed-time story in many a pioneer's shack.

Following a sudden blizzard, a search party came upon the frozen body of a wanderer, who had perished by the way-side some miles west of Pincher. His, no doubt, painless demise had taken place as he sat loathed up with arms clasping his knees, and such was his posture when the remains were discovered.

A police party brought the body in and as it was necessary to thaw the remains for decent interment, the latter were laid upon some planks in the blacksmith shop where a fire was lit and two men left on guard.

The watchers slumbered quietly as the atmosphere became more and more comfortable from the furnace glow. Suddenly they were awakened by a crash and as they jumped they saw the corpse, now thawed and straightening by muscular reflex, kick the planks to the floor and topple towards the watchers.

It is on record that the sentinel jumped clear through the window taking the easement with them and continued their panic-stricken flight until exhaustion befell them.—Lethbridge Herald.

## Here and There

R. G. MacKay senior, dairy producer for Western Canada, states that Manitoba creamery butter production in 1930 showed an increase of \$4.6 per cent. over 1929.

About 10,000,000 pounds of fish are caught annually in the large and small lakes of the province of Saskatchewan, and approximately 1,400 men are employed in the industry.

Aggregate value of field crops grown in Canada in 1930 is officially estimated at \$631,592,000 and total area sown to crops was 62,214,670 acres, an increase over 1929 of about 1,000,000 acres.

In a final estimate of the wheat production of Canada in 1930, the Canadian Government Bureau of Statistics places the total yield at 397,873,000 bushels, an increase of over 2,000,000 bushels compared with the previous estimate.

From end of September 1930 to January 15, 1931, over 26,000,000 pounds of sugar was produced at the beet sugar factory at Raymond, Alberta. The industry has grown to substantial proportions in that province of late years.

From Winnipeg a radio fan writes:—"Melody Mike" is talked around the offices and warehouses in Winnipeg as though he were a real Canadian Pacific official. The reference is to the Canadian Pacific radio offering on Monday nights across the Dominion.

Vancouver will have a team of fine golfing calibre on the fairways of the Oak Bay course where the third annual mid-winter Empress golf tournament for the E. W. Board trophy will be staged February 23-28. Entries are in from Victoria, Seattle, Portland, Tacoma and almost all of the western provinces.

Grain marketed along the western lines of the Canadian Pacific Railway from August 1 to January 31 amounted to 165,793,000 bushels of which 149,928,000 bushels was wheat. The total marketings of grain along Canadian Pacific lines represent 98 per cent of the total grain marketed in western Canada to that date.

Canada now has more than forty bird sanctuaries specially reserved for bird protection purposes. These are scattered across the country from Nova Scotia to British Columbia. Some of the provincial governments also maintain similar reserved areas for the benefit of native bird life. A census of ten such sanctuaries, not including young birds hatched there, was 100,826 of 16 different species.

Over 97 per cent of the assets of the Canadian Pacific Railway are in Canada and in drawing attention to this fact some months ago Mr. E. W. Beatty, Chairman and President of the company, went on to say that he would be glad to see an increase in the Company's shareholders in this country. Since that time the increase has been most marked as is shown by the following statement of Canadian Pacific common shares held in Canada now and at the end of the two previous years:

Date	Shares	Value
Dec 31, 1928	69,719	\$7,448
Dec 31, 1929	77,848	\$8,109
End of 1930	81,209	\$8,521

White Leomin used "No Dime" BB" from Port Kells, B.C., laid 357 eggs in 265 days, making her an champion egg layer. The eggs weighed 52 pounds, just ten times her own weight.

In the past fiscal year in Nova Scotia there were 121 companies incorporated with total capitalization of \$5,367,000, an increase of 12 new companies over the previous year.

Rt. Hon. R. B. Bennett, Prime Minister of Canada, and a graduate of Dalhousie University, was recently presented with a leather-bound script conveying recognition and regard of nineteen classmates of the same year.

Theodore H. Kipp, chairman of the Industrial Development Board of Manitoba, reports that since the inception of the Board, Manitoba's industrial payroll has been increased from \$18,000,000 to \$36,000,000.

Miss Margaret Stevenson, of Edmonton, has succeeded to the crown of the next Baffin Winter Carnival, following Miss Doris Farber, of Vancouver, last year's Queen. The election was the closing feature of a very successful meet.

W. E. Brissenden, of Montreal, has been appointed Development Engineer, Department of Development, Canadian Pacific Railway. He succeeds G. M. Butt who was recently promoted to Assistant Director of Development, with headquarters in Winnipeg.

The 42,500-ton Empress of Britain which is scheduled to sail on her maiden voyage to Quebec, May 29, is the largest vessel built in Great Britain since pre-war days and the largest ship plying between British Empire ports. She will also be the largest vessel ever to make a world cruise.

Total increase in railway traffic during the 25 years from 1890 to 1929 in the United States was from 31 million to 421 million dollars, says Dr. Parmelee, Director, Bureau of Railway Economics. This, he asserts, has had an unfavorable effect both on industries and individuals.

## Making a Convenience of a Business

Many there are who make of a legitimate and well-established business nothing but a convenience—a place from which to get odds and ends when there is no time to go farther afield. They do not hesitate to send their money away for many things they need, and which could just as satisfactorily and much more promptly be supplied by their home merchants and dealers. No business, no matter of what nature, can long exist on this sort of patronage. The public expect to receive services as and when they demand it; but many do not do their part in making this possible.

There are manufacturing industries with fairly complete equipment which, because of such lack of consideration, are idle much of the time. It must be patent to all that a busy plant can be operated much more cheaply than one which is working only on part time. Therefore, it should be the policy of all to place their business of whatever kind it may be with the local plant or factory to the end that it may be kept reasonably busy and thus be in a position to give its best service.

When it is printed matter of any kind, remember the plant and equipment of

Jack Houbregs is the hockey talking point in Seattle. They can see him in the N.H.L. standing the customers in the "ais-els." He won't big, although wee Bobby Benson "out-spun" him in the clinches—Vancouver Sun.

Thomas Duncan arrived in the city a few days ago after spending the winter in California. Tom says we may think we have hard times around here, but we should go to California if we would see real poverty. He says hundreds of men in the larger cities live on what they can salvage from the garbage cans.—Fermie Free Press.

A meeting of the Blairmore Amateur Athletic Association will be held in the parlor of the Cosmopolitan hotel on Friday evening, April 10th at 8 p.m. Business—Election of officers and discussion re completion of Athletic Grounds. Everyone interested in any branch of sport is earnestly requested to attend.

A Scotch minister from a large town once visited and preached in a rural parish, and was asked to pray for rain. He did so, and the rain came in floods and destroyed some of the crops, whereupon one elder remarked to another: "This comes o' trustin' sich a request to a minister who jina' acquainted wi' agriculture."

E. W. Palmer, district supervisor of the Metropolitan Life Insurance Company, has been in town for several days past, arranging the transfer of the local agency of his company from Mr. D. A. Howe to J. B. Harmer. Mr. Harmer, who is well known in this district, has now taken over the agency and will shortly move his family back to Blairmore.

The statement contained in the report of the annual meeting of the Game and Fish Association in the Medicine Hat News, causes one to wonder how such a meeting could be accommodated in Blairmore's council chamber. In part it states: "While the members were a trifle slow in registering, the business of the day was hardly entered upon before the council chamber began to rapidly fill up, until eventually every seat in the large hall was occupied." Were such a meeting to be held in Blairmore, the council chamber would probably be filled by the executive and the interested audience would occupy the street. The same circumstance applies to our court house, the courtroom of which can seldom ever accommodate more than those vitally interested in the case, which has a tendency to encourage what is known as "kangaroo courts."

Mrs. Alphonse Fabbro, of Kimberley, is a visitor for a few days with her mother, Mrs. E. J. Pozzi.

Constable Bernard has been added to the local detachment of the A. P. Police, succeeding Constable H. Purkis.

The ladies of the United church held a successful tea and sale of Easter flowers, etc., in the Moose hall this afternoon.

Hundreds of geese on their northern trek hovered over Blairmore for about an hour early Saturday morning, then proceeded east through The Pass.

At the annual meeting of the Alberta Hereford Breeders' Association, held at Calgary this week, William Bennett, manager of the Rock Creek Hereford Ranch, near Burnis, was elected to the board of directors.

Robert Livett, president of District 18 of the United Mine Workers of America, and Angus J. Morrison, secretary, were in The Pass on Tuesday to attend the funeral of David McDonald McLeod, son of Mr. and Mrs. Herdman McLeod, of Coleman.

The good work being accomplished by the Medicine Hat Fish and Game Association might well be duplicated by a strongly organized branch in this district. A district organization is needed.

According to the Edmonton Journal, an engagement of great interest announced is that of Mrs. Barber, widow of the late Commander Russell Barber, of Cheshire, England, to the Hon. Mr. Justice W. L. Walsh, of the Supreme Court of Alberta. Mrs. Barber lives in Vancouver and is a great favorite in society throughout the Dominion.

At a meeting of the Pincher Creek council last week, an application was received for a subscription toward the expenses of the musical festival. The matter was discussed fully, and while the council were strongly in favor of the festival, they did not think it advisable to spend public moneys for this purpose.

Residents of the Crows' Nest Pass were surprised on looking out this morning to find the district blanketed by about fourteen inches of new snow. We understand that the storm covered practically all of Southern Alberta and is welcomed in the farming districts. Two storms locally during the week meant precipitation of at least 1½ inches of moisture.

On Sunday and Monday last the congregation of St. Paul's United church at Coleman celebrated the twenty-fifth anniversary of the church, which was established and operated for years, until the consummation of union, as the Institutional church of Coleman. The services on Sunday were in charge of Rev. F. W. Locke, of Nanton, a pioneer Alberta missionary, who is shortly to be superannuated after having served the church for forty-four years.

The annual meeting of the Ladies' of the Blairmore Golf Club was held in the Greenhill hotel on March 21st. The officers elected for the ensuing year are as follows: captain, Mrs. F. M. Thompson; vice-captain, Mrs. Kerr; secretary-treasurer, Mrs. Rhyas; competition committee, Mrs. Granger and Mrs. J. Smith; handicap committee, Mrs. Farmer; social committee, Mrs. Wilson; Greig, Bennett, Pinkney, Morgan and Passmore. On the first Saturday of each month there will be the usual 9-hole handicap competition. The prize for this is being given by Mrs. Passmore. On the third Saturday of each month there will be an eighteen-hole handicap competition the prize to be given by the Club. Mrs. Frank Smith has offered a prize for an eclectic competition. The date of the annual spring Golf Club dance will be announced later.
